Con l'obiettivo di semplificare e velocizzare l'installazione dei suoi prodotti, Siccom ha intrapreso alcuni progetti come ad esempio:

- l'utilizzo di connettori "Plug and Play" (uguali alla connessione in portiera) per ridurre le operazioni d'installazione;
- l'incremento dei riferimenti che utilizzano centraline in grado di comunicare con il protocollo LIN. Grazie a questo nuovo sistema, a partire dal 2018, Siccom è in grado di garantire il mantenimento di tutte le funzioni integrate nell'alzacristallo, anche dopo l'inserimento del ricambio in vettura;
- Siccom ha anche lavorato nella direzione del prodotto simile alla versione originale, implementando il numero di codici che rientrano in questa categoria.
- le video istruzioni, realizzate da personale esperto e disponibili sul canale YouTube di Ac Rolcar per un'installazione più facile e veloce. I tutorial sono gratuiti ed accessibili direttamente dall'officina.

To simplify and speed up the installation of its products, Siccom has undertaken projects such as:

- *use of "Plug and Play" connectors (the same as the door connection) to reduce installation steps;*
- *increase in the number of products using control units able to communicate with the LIN protocol. Since the introduction of this new system in 2018, Siccom is able to guarantee the operation of all the functions included in the window regulator, even after installing the spare part in the car;*
- *Siccom has also worked towards products similar to the original version, including the codes that belong to this category.*
- *video instructions, prepared by experts and available on Ac Rolcar's YouTube channel for easier and faster installation. The tutorials are free and accessible directly from the workshop 24/7.*
